**DGL Gut Complex**

**Licorice Root Powder**

**Product Details:**

The mucous membrane of the G.I. tract is the body’s first line of defense to protect against invading pathogens, among other things. This protective barrier may become compromised due to persistent infection or overuse of certain over-the-counter medications. Once this occurs, not only does digestion become compromised, but the entire immune system also becomes weakened. Because the integrity of the mucous membrane is so vital to sustaining a healthy immune system and a strong digestive system, Energetix has formulated **DGL Gut Complex** to assist in healing of the mucosa.

**DGL Gut Complex** is deglycyrrhizinated licorice root in a powder form which was designed for ease of use and increased absorbability. Studies on the positive benefits of DGL are numerous and suggest it both stimulates and accelerates mucus formation and secretion from epithelial cells of the mucosa. Additional evidence has shown DGL to be just as effective in providing relief from ulcers as prescription and over-the-counter medicines, but without the risk of harmful side effects. It has been documented that alcohol, caffeine, aspirin or other non-steroidal anti-inflammatory drugs (NSAIDs) can decrease the health and integrity of the gastric lining. In this light, scientific investigation has found that DGL may help reduce gastric bleeding caused by overuse of aspirin. Other studies have found this compound to also be helpful with duodenal ulcers and ulcers caused by *H. pylori* infection.

**DGL Gut Complex** may be used with confidence in any healing strategy designed to target infection or damage to the gastrointestinal mucosa.

**Recommended Usage:**

As a dietary supplement take 1/2 teaspoon 3 times per day, or as directed by your healthcare professional. For best results, mix directly with saliva in mouth, or add sufficient water to make a paste, then swallow.

**Synergistic Considerations:**

- Core Condurango Blend
- Core Black Radish Blend
- Colo-Chord
- IBD-Chord
- Drainage-Tone
- Inflamma-Tone
- Seratran
- AminoGest
- GALT-immune
- Catalyst-U
- Flora Synergy
- Flora 12+
- Phyto Rad Antioxidant
- Rising Mist

**Disclaimer:**

Limited to licensed Healing Arts Practitioners for clinical research purposes only.

Key Ingredients:

Deglycyrrhizinated Licorice Powder – Licorice has been used traditionally for a variety of conditions related to the adrenals, respiratory system, digestive system and liver. This form of licorice, also known as DGL, has been designed to specifically target the digestive system and studies suggest that it has been found to have a strong healing action on the digestive mucosa.

This product is gluten-free.
